- Time**
VIDEO
PHOTO
- Time display format: year-month-day hour: minute: second
- 2025-05-01 00:00:00 Y
- The setting time is as follows:

- d. The camera will occupy about 6G memory space per hour.
It can support 128G memory card maximally.
e. The power consumption per hour of camera is about 130mAh by day. Never use the equipment for unauthorized purpose.

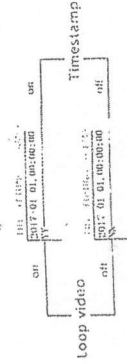

Parameters	
Item	AI
Video format	M-JPEG
Video encoding	1920*1080P
Video resolution	30fps/15fps
Video frame rate	Attached software in the operating system, or the mainstream video playing software
Media playing software	JPG
Picture format	4MP
Image ratio	4:3
Compatible OS	Windows me/2000/xp/2003/Vista; Mac os 10.4; Linux;
Charging voltage	DC-5V
Charging time	About 1.5hours
Interface	Mini 5 Pin USB
Storage	Micro SD(TF) card
Battery	High-capacity lithium polymer

Maintenance and Frequently Asked Questions :

Attention:

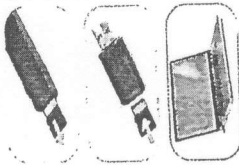

- a. Application: Please abide by the relevant regulations and laws in your country. The product is forbidden for any illegal purposes. The user is fully responsible for the illegal purposes.
