

Warm tips:

1. To make sure to format the SD card before using it. And it can support up to 128 GB SD card.
2. Please insert an SD card before use.
3. The standby mode will last for one minute. If there is no other operation, the product will turn off to save power.

V. How to remove the time and date watermark?

The recorded video will show the time and date watermark by default. If you want to remove the time and date watermark in the recorded video, you can follow the steps below.

1. Insert the SD card and turn on the camera, the Micro SD card will automatically generate a text file named "time.txt"

File Edit Format View Help

IDATE_TIME]
YEAR=2022
MONTH=01
DAY=01
HOUR=23
MINUTE=59
SECOND=59
DATE_STAMP=Y

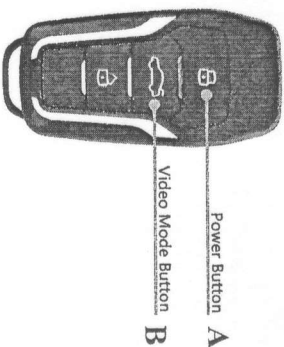

Note:

1. If you don't want to show the time stamp on videos/images, you could change Y to N.
2. MONTH / DAY / HOUR / MINUTE / SECOND except YEAR should be typed in a two-digit format, such as 01, 02, 03, instead of 1, 2, 3.
